

Frasier Sundra

Perth, WA | P: +61 451866103 | fsundra@gmail.com | www.linkedin.com/in/fsundra

Computer Science graduate with internship experience and a strong interest in clean code, cloud-native development, and automated testing. Eager to contribute to building reliable, high-performance software products.

WORK EXPERIENCE

SOFTWARE ENGINEER - EQUITY SOLAR

Perth, WA

Full-Stack development for Energy Systems | *ReactJS, NextJS, ASP.NET Core, C#, Typescript, HTML, CSS* Aug 2025 - present

- Developed secure internal tools for a solar brokerage, streamlining reporting workflows and reducing reliance on outsourced teams
- Developing a full stack Web Application to remotely control a wide array of solar batteries.
- Developed backend systems to supply real-time data to a virtual power plant platform and user-facing mobile application.
- Applied software engineering practices with a focus on security and reliability, ensuring data integrity, access control, and resilience within energy applications.

SOFTWARE ENGINEERING INTERN - ABLE

Perth, WA

Software Engineering Intern for a Learning Management Platform | *Dotnet Framework, C#, HTML, CSS* Sep 2025 - present

- Collaborated with senior developers to design and implement responsive user interfaces using **HTML** and **CSS**.
- Developed backend systems to integrate scheduling software, improving data flow and system coordination.
- Assisted in debugging, testing, and deploying front-end features while following modern development workflows (e.g., **Git**, **Agile**, **REST APIs**).

OTHER PROJECTS

ANIMAL BOARDING TOOL

- Developing a boarding management system for a veterinary clinic using **Next.js**, **Typescript** and **PostgreSQL** to streamline booking, tracking, and client records.
- Implementing medication and feeding scheduling tracking to ensure accurate treatment administration.
- Designing and building secure data models and APIs to manage pet profiles, stay history, and operational workflows.

VOLUNTEERING

CODERS FOR CAUSES - BOOKING SYSTEM

Perth, WA

Full-Stack development of a Booking System | *ReactJS, NextJS, Django, Typescript, Python, HTML, CSS* Nov 2025 - present

- Serving as volunteer helper / tech lead for a youth-nonprofit booking platform focusing on defining **Django-Next.js system architecture**.
- Tutoring 2 university colleagues through weekly 1:1s and pair-programming, raising their PR acceptance rate.
- Projects include event management, member management and front facing consumer websites
- <https://github.com/codersforcauses/>

TECHNICAL SKILLS

Languages: Typescript, Golang, C#, C++, C, Python, HTML/CSS, SQL

Frameworks & Tools: NextJS, React, Nextjs, Django, Vim, PostgreSQL, Docker, Git, Drizzle

EDUCATION

UNIVERSITY OF WESTERN AUSTRALIA

Perth, WA

Bachelor of Commerce and Engineering Science

June 2024

Relevant Coursework: Software Engineering; Operating Systems, Cybersecurity, Networks
